“ I do not know where to begin with my fondness of David. He taught me everything I knew about Telemetry and then some. He was so funny and thoughtful and caring, especially with his family. When he would come to Houston we would all have the best time. I am going to miss you terribly my friend. You will always be in my thoughts and my heart. I still cannot believe this is true and that you are no longer with us but I know you are so happy being with Carole again. My thoughts and prayers to your family. Love you forever.

“ Duffy and I knew each other since 1986, when I began working with him in cylinder maintenance at Air Liquide. We worked a lot of Saturdays back then, and the few we had off we would hang around together. We were close for many years but drifted apart these last few years. He was, a kind, loving person with a huge heart. He is with Carole now, and that mischievous grin is back on his face. I love you, brother.

“ I only met David a couple of times. To me, David was a voice on the other end of the phone. But he was one that always had the ability to help you out with any request you could think up. Speaking from our Reliability and Engineering team, David's contributions will be sorely missed. Please Rest in Peace.

“ I loved reading all the kind posts about how David affected all your lives. I will miss him more than he could ever know. Thank you for being a great brother. I'm sorry we never got to meet up again after last fall when we went to Louisiana to say good by to our brother Ed. I'm glad you are with Carole again but we will miss you tons!

“ People like Dave don't come along very often and I feel honored to be able to call him a friend. During our time together at Air Liquide I relied on him not only as a professional resource but also when I needed an ear to bend, and our trips to Houston were always memorable. Even after my departure from AL we remained in touch, often times sharing stories about family and days gone by.

My sincere condolences go out to Dave's family in their time of loss and sorrow. Rest easy brother.

“ He will be missed that's for sure. And that smile went on forever. Now he is with Carole and I'm sure that smile is bigger there with her. My condolences to Kev, Angie, Matt, Danielle, Karter and Mason as well as his sister, Gail. Love to you all.

“ David, my friend, I'm going to miss you. A lot.
We've worked in the same team for the past 20 years.
We started as coworkers and we became great friends along the way.
I will always remember your kindness, your big heart, and your sense of humour.
I will miss chatting with you, and being woken up by your calls in the early morning hours
because "Houston, we have a problem, the system is down".
We shared a lot of great moments, and also some difficult ones, but we always supported each other, and that will stay.
Batroc salutes his Captain Duffy.
Au revoir mon ami, bon voyage!!

My deepest sympathy and my sincere condolences to the family during this difficult period.

“ David is someone who made life easier for others, always striving to do his best. I admire his dedication to his work and family, no matter what was thrown his way. He was a friend, colleague, and inspiration. Truly, he was a person you looked forward to seeing again soon, because you know that he cared and listened. May he rest in

peace!

“ Duffy was a good friend and colleague. I met him through Air Liquide but we became good personal friends over the years. He was always ready with his quick wit and I regret that I didn't get to spend more time with him. Thank you for all your help through the years and thanks for allowing me to get to know you and your family. I will miss you, brother.

“ Although we never met in person I always considered him a friend. We met through Air Liquide. I always gave him a bad time about the Masters golf tournament he hated it with a passion. I just wish I could have met him in person so I could have shaken his hand and thanked him for all the help he gave me over the years!

“ David and I worked together at Air Liquide for many years. I don't think there was a telemetry problem we couldn't solve. He will be missed.
I had the honor of calling David a friend. It is a shock to hear he's gone.

“ David was one of the first people I met when I joined Air Liquide 24 years ago. He was always such a nice man, and I've had the pleasure to work with him over the years. David has always been ready and willing to help anyone in any way. He will be greatly missed by all of his coworkers! Wishing his family peace in what must be such a difficult time.

“ David was a great coworker dedicated to his job and the people he worked with. He was a fan of great music. The world will miss him greatly. My condolences to his family and friends.

Dart Byington - July 26 at 06:10 PM

“ David's acts of friendship to me were numerous and much appreciated. I always enjoyed his sense of humor. David always could make me laugh.

It was very touching when David mentioned that he considered his son to be his best friend. It's great that they had that kind of relationship.

It's hard to imagine that David is gone. He will be missed.
